**RULING ON ENTITLEMENT<sup>1</sup>**

On March 29, 2021, Donald Holmberg filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleged that following his receipt of an influenza (“flu”) vaccine on January 28, 2020, he developed Guillain-Barré syndrome (“GBS”). Petition at ¶¶ 1, 24-25. The case was assigned to the Special Processing Unit (“SPU”) of the Office of Special Masters.

On June 23, 2023, I concluded that (under the “more likely than not” preponderant standard), onset occurred no more than 42 days after receipt of the flu vaccine. Findings of Fact and Conclusions of Law, ECF No. 38.

On September 7, 2023, Respondent filed his Rule 4(c) report in which he recognizes my onset determination as the law of the case, and he advises that he will not defend the cause on other grounds during further proceedings before the Office of Special Masters. Respondent's Rule 4(c) Report at 7. Respondent submits that Petitioner has otherwise satisfied the criteria set forth in the Vaccine Injury Table and the Qualifications and Aids to Interpretation ("QAI") for GBS following flu vaccination. *Id.* at 8 (citing 42 C.F.R. §§ 100.3(a)(XIV)(D), (c)(15)). Respondent further agrees that Petitioner has satisfied all legal requisites for compensation under the Vaccine Act. *Id.*

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
